

VirtualArmour to Co-Host Cybersecurity Workshop at Denver Biz Tech Expo on October 25, 2018

October 9, 2018

CENTENNIAL, Colo., Oct. 09, 2018 (GLOBE NEWSWIRE) -- **VirtualArmour International Inc. (CSE:VAI) (F:3V3) (OTCQB:VTLR)**, a premier cybersecurity managed services provider, has been invited to co-host a cybersecurity workshop at the [2018 Denver Biz Tech Expo: "Simplify Your IT"](#) being held at the Mile High Stadium in Denver, Colorado on October 25.

As Colorado's premier technology event, every year the expo attracts more than 1,000 business decision makers from small, midsize and enterprise companies. Leading global technology companies will showcase hardware, software, service, security and cloud solutions directly to the business decision makers.

The cybersecurity workshop, "[Simplify Cybersecurity for your Business.](#)" will be led by VirtualArmour's senior security engineer, Garrett Stanley, along with experts from Platte River Networks. Platte River Networks, a Denver-based managed IT firm, provides managed services, infrastructure and project management along with help desk support to businesses across the U.S. The workshop will demonstrate how businesses can simplify their cybersecurity while making it more effective and agile.

"As a leading provider of state-of-the-art cybersecurity solutions with some of the most talented cybersecurity engineers in the industry, VirtualArmour is the ideal partner to co-host this workshop," said David DeCamillis, president of the Denver Biz Tech Expo, and VP of sales and marketing for Platte River Networks. "We expect attendees to gain valuable insights into the many advantages of deploying managed services as a way to make their cybersecurity platform more simple, effective and agile."

Given the increasing number of high-profile data breaches, cybersecurity has become a critical focus for most business executive and owners. [Cybersecurity Ventures](#) predicts global spending on cybersecurity products and services will exceed \$1 trillion between 2017 to 2021, reflecting annual growth of 12%-15% through 2021.

About the Denver Biz Tech Expo

Denver Biz Tech Expo presents: "Simplify Your IT" on October 25th at Mile High Stadium. "Simplify Your IT" will feature industry-leading technology software, hardware, service, cloud and security providers helping Colorado companies reduce the complexity of their IT and streamline their business. For eight years, the Denver Biz Tech Expo has provided technology companies a platform to showcase their most advanced technology solutions striving to help companies operate more successfully in today's competitive global marketplace. Over 1,000 attendees include: C-Levels, business owners, executives, directors, managers and IT professionals across all industries. www.denverbiztechexpo.com

The company maintains 24/7 client monitoring and service management with specialist teams located in its U.S. and UK-based security operation centers. Through partnerships with best-in-class technology providers, VirtualArmour delivers leading hardware and software solutions for customers that are both sophisticated and scalable, and backed by industry-leading customer service and experience. The company's proprietary CloudCastr client portal and prevention platform provides clients with unparalleled access to real-time reporting on threat levels, breach prevention and overall network security.

VirtualArmour services a wide range of clients, which include Fortune 500 companies and several industry sectors in over 30 countries across five continents. For further information, visit www.virtualarmour.com.

Important Cautions Regarding Forward Looking Statements

This press release may include forward-looking information within the meaning of Canadian securities legislation and U.S. securities laws. This press release includes certain forward-looking statements concerning the future performance of our business, its operations and its financial performance and condition, as well as management's objectives, strategies, beliefs and intentions. The forward-looking information is based on certain key expectations and assumptions made by the management of VirtualArmour. Although VirtualArmour believes that the expectations and assumptions on which such forward-looking information is based are reasonable, undue reliance should not be placed on the forward-looking information as VirtualArmour cannot provide any assurance that it will prove to be correct.

Forward-looking statements are frequently identified by such words as "may", "will", "plan", "expect", "anticipate", "estimate", "intend" and similar words referring to future events and results. Forward-looking statements are based on the current opinions and expectations of management. All forward-looking information is inherently uncertain and subject to a variety of assumptions, risks and uncertainties, including the success of the Company in performing the IT implementation and migration, performance under the contract by all parties, the ability of VirtualArmour to meet timelines, the continued availability of necessary hardware, the absence of any trade war or tariffs affecting VirtualArmour's ability to perform, competitive risks and the availability of financing. These forward-looking statements are made as of the date of this press release and VirtualArmour disclaims any intent or obligation to update publicly any forward-looking information, whether as a result of new information, future events or results or otherwise, other than as required by applicable securities laws.
