

VirtualArmour Invited to Exhibit at SecureWorld Denver Oct. 31 – Nov. 1, 2018

October 15, 2018

CENTENNIAL, Colo., Oct. 15, 2018 (GLOBE NEWSWIRE) -- **VirtualArmour International Inc. (CSE:VAI) (F:3V3) (OTCQB:VTLR)**, a premier cybersecurity managed services provider, will exhibit at the 6th annual [SecureWorld Denver](#) being held at the Hyatt Regency Denver Technology Center on October 31, 2018 to November 1, 2018.

SecureWorld conferences provide more content and facilitate more professional connections than any other event in the cybersecurity industry. SecureWorld Denver will bring together security professionals for high-quality, affordable cybersecurity training and education.

The conference will feature keynote presentations, panel discussions and breakout sessions, along with networking opportunities. The expo floor will showcase the latest technologies from more than 40 security solution providers.

In partnership with VirtualArmour, Jeff Bird, a senior security specialist of [Juniper Networks](#), will co-host an emerging threat panel, "What Will They Think of Next?," at 1:15 pm Mountain time on October 31.

VirtualArmour invites attendees to stop by booth #302 to learn about customized solutions that can help businesses build, secure, monitor and maintain and their networks. The company will also demonstrate its proprietary CloudCastr client portal and prevention platform that provides businesses with unparalleled access to real-time reporting on threat levels, breach prevention and overall network security.

[Cybersecurity Ventures](#) predicts global spending on cybersecurity products and services will exceed \$1 trillion between 2017 to 2021, reflecting annual growth of 12%-15% through 2021.

About SecureWorld

SecureWorld conferences provide more content and facilitate more connections than any other cybersecurity event in North America. Its 17 regional events equip and inspire IT professionals on the front lines. For over 16 years, SecureWorld has stayed on top of global IT security issues and shared the critical knowledge and tools needed to thwart ever-evolving threats. Through its network of industry experts, thought leaders, practitioners, and solution providers, SecureWorld collaborates to produce leading-edge, relevant content and educational opportunities. About Juniper Networks

Juniper Networks simplifies the complexities of networking with products, solutions and services in the cloud era to transform the way we connect, work and live. We remove the traditional constraints of networking to enable our customers and partners to deliver automated, scalable and secure networks that connect the world. Additional information can be found at [Juniper Networks \(www.juniper.net\)](#) or connect with Juniper on [Twitter](#), [LinkedIn](#) and [Facebook](#).

About VirtualArmour

VirtualArmour International is a global cybersecurity and managed services provider that delivers customized solutions to help businesses build, monitor, maintain and secure their networks.

The company maintains 24/7 client monitoring and service management with specialist teams located in its U.S. and UK-based security operation centers. Through partnerships with best-in-class technology providers, VirtualArmour delivers leading hardware and software solutions for customers that are both sophisticated and scalable, and backed by industry-leading customer service and experience. The company's proprietary CloudCastr client portal and prevention platform provides clients with unparalleled access to real-time reporting on threat levels, breach prevention and overall network security.

VirtualArmour services a wide range of clients, which include Fortune 500 companies and several industry sectors in over 30 countries across five continents. For further information, visit www.virtualarmour.com.

Important Cautions Regarding Forward Looking Statements

This press release may include forward-looking information within the meaning of Canadian securities legislation and U.S. securities laws. The forward-looking information is based on certain key expectations and assumptions made by the management of VirtualArmour. Although VirtualArmour believes that the expectations and assumptions on which such forward-looking information is based are reasonable, undue reliance should not be placed on the forward-looking information as VirtualArmour cannot provide any assurance that it will prove to be correct.

Forward-looking statements are frequently identified by such words as "may", "will", "plan", "expect", "anticipate", "estimate", "intend" and similar words referring to future events and results. Forward-looking statements are based on the current opinions and expectations of management. All forward-looking information is inherently uncertain and subject to a variety of assumptions, risks and uncertainties, including the success of the Company in performing the IT implementation and migration, performance under the contract by all parties, the ability of VirtualArmour to meet timelines, the continued availability of necessary hardware, the absence of any trade war or tariffs affecting VirtualArmour's ability to perform, competitive risks and the availability of financing. These forward-looking statements are made as of the date of this press release and VirtualArmour disclaims any intent or obligation to update publicly any forward-looking information, whether as a result of new information, future events or results or otherwise, other than as required by applicable securities laws.
