

VirtualArmour Wins Edge Data Center Project for One of Colorado's Top Three Largest K-12 School Districts

January 29, 2019

CENTENNIAL, Colo., Jan. 29, 2019 (GLOBE NEWSWIRE) -- **VirtualArmour International Inc. (CSE:VAI) (F:3V3) (OTCQB:VTLR)**, a premier cybersecurity managed services provider, was awarded a project to upgrade the data edge center network for one of Colorado's top three largest K-12 school districts. The project is valued to VirtualArmour at more than \$670,000.

The project involves deploying Juniper Network switches and VirtualArmour professional services. VirtualArmour plans to work closely with the school district to optimize the network over the next few years.

"The school district needed a customized and cost-effective solution to replace legacy equipment that was causing significant network issues," said Andrew Douthwaite, CTO of VirtualArmour. "We designed a solution that fits their budgetary requirements while providing a feature-rich, high-performance network. Following this initial deployment, we see this relationship developing further over time."

According to the executive director of infrastructure services for the school district, "VirtualArmour has worked closely with us in planning and designing this network upgrade to ensure a smooth transition. The high-level of professional support provided during this process has assured us that we will now have a capable network design, with VirtualArmour as a truly trusted partner to help us with ongoing management and support."

About VirtualArmour

VirtualArmour International is a global cybersecurity and managed services provider that delivers customized solutions to help businesses build, monitor, maintain and secure their networks.

The company maintains 24/7 client monitoring and service management with specialist teams located in its U.S. and UK-based security operation centers. Through partnerships with best-in-class technology providers, VirtualArmour delivers leading hardware and software solutions for customers that are both sophisticated and scalable, and backed by industry-leading customer service and experience. The company's proprietary CloudCastr client portal and prevention platform provides clients with unparalleled access to real-time reporting on threat levels, breach prevention and overall network security.

VirtualArmour services a wide range of clients, which include Fortune 500 companies and several industry sectors in over 30 countries across five continents. For further information, visit www.virtualarmour.com.

Important Cautions Regarding Forward Looking Statements

This press release may include forward-looking information within the meaning of Canadian securities legislation and U.S. securities laws. This press release includes certain forward-looking statements concerning a service contract VirtualArmour has entered into with a current client, VirtualArmour's continued relationship with various suppliers, the future performance of our business, its operations and its financial performance and condition, as well as management's objectives, strategies, beliefs and intentions. The forward-looking information is based on certain key expectations and assumptions made by the management of VirtualArmour. Although VirtualArmour believes that the expectations and assumptions on which such forward-looking information is based are reasonable, undue reliance should not be placed on the forward-looking information as VirtualArmour cannot provide any assurance that it will prove to be correct.

Forward-looking statements are frequently identified by such words as "may", "will", "plan", "expect", "anticipate", "estimate", "intend" and similar words referring to future events and results. Forward-looking statements are based on the current opinions and expectations of management. All forward-looking information is inherently uncertain and subject to a variety of assumptions, risks and uncertainties, including the success of the Company in performing the IT implementation and migration, performance under the contract by all parties, the ability of VirtualArmour to meet timelines, the continued availability of necessary hardware, the absence of any trade war or tariffs affecting VirtualArmour's ability to perform, competitive risks and the availability of financing. These forward-looking statements are made as of the date of this press release and VirtualArmour disclaims any intent or obligation to update publicly any forward-looking information, whether as a result of new information, future events or results or otherwise, other than as required by applicable securities laws.
