

VirtualArmour Information Security Management System Receives ISO-27001:2013 Certification

March 7, 2019

CENTENNIAL, Colo., March 07, 2019 (GLOBE NEWSWIRE) -- VirtualArmour International Inc. (CSE:VAI) (OTCQB:VTLR), a premier cybersecurity managed services provider, has received [ISO certification 27001:2013](#) for its information security management system (ISMS).

An ISMS is a systematic approach to managing sensitive company information so that it remains secure, and it includes people, processes and IT systems by applying a risk management process. It can help small, medium and large businesses in any sector keep information assets secure.

"The ISO certification validates our process of controls as a global managed security service provider," said Andrew Douthwaite, CTO of VirtualArmour. "It demonstrates our ongoing commitment to managing and protecting our customer's information assets around the world."

ISO 27001:2013 specifies the requirements for establishing, implementing, maintaining and continually improving an ISMS within the context of an organization. It also includes requirements for the assessment and treatment of information security risks tailored to the needs of an organization.

About International Organization for Standardization

ISO is an independent, non-governmental international organization with a membership of 164 [national standards bodies](#).

Through its members, it brings together experts to share knowledge and develop voluntary, consensus-based, market relevant International Standards that support innovation and provide solutions to global challenges. For more information, visit www.iso.org.

About VirtualArmour

VirtualArmour International is a global cybersecurity and managed services provider that delivers customized solutions to help businesses build, monitor, maintain and secure their networks.

The company maintains 24/7 client monitoring and service management with specialist teams located in its U.S. and UK-based security operation centers. Through partnerships with best-in-class technology providers, VirtualArmour delivers leading hardware and software solutions for customers that are both sophisticated and scalable, and backed by industry-leading customer service and experience. The company's proprietary CloudCastr client portal and prevention platform provides clients with unparalleled access to real-time reporting on threat levels, breach prevention and overall network security.

VirtualArmour services a wide range of clients, which include Fortune 500 companies and several industry sectors in over 30 countries across five continents. For further information, visit www.virtualarmour.com.

Important Cautions Regarding Forward Looking Statements

This press release may include forward-looking information within the meaning of Canadian securities legislation and U.S. securities laws. This press release includes certain forward-looking statements concerning the future performance of our business, its operations and its financial performance and condition, as well as management's objectives, strategies, beliefs and intentions. The forward-looking information is based on certain key expectations and assumptions made by the management of VirtualArmour. Although VirtualArmour believes that the expectations and assumptions on which such forward-looking information is based are reasonable, undue reliance should not be placed on the forward-looking information as VirtualArmour cannot provide any assurance that it will prove to be correct.

Forward-looking statements are frequently identified by such words as "may", "will", "plan", "expect", "anticipate", "estimate", "intend" and similar words referring to future events and results. Forward-looking statements are based on the current opinions and expectations of management. All forward-looking information is inherently uncertain and subject to a variety of assumptions, risks and uncertainties, including the ability of VirtualArmour to meet timelines, the continued availability of necessary hardware, the absence of any trade war or tariffs affecting VirtualArmour's ability to perform, competitive risks and the availability of financing. These forward-looking statements are made as of the date of this press release and VirtualArmour disclaims any intent or obligation to update publicly any forward-looking information, whether as a result of new information, future events or results or otherwise, other than as required by applicable securities laws.
